

Washing mashines inlet hoses

(GB) Connection and usage instructions

First of all, we congratulate you on the purchase of this high-quality product from **Otto Haas KG**. In order to ensure its functionality and service life, please note the following points:

- Before installing the hose, check that the seals on the hose are properly installed in the fitting.
- Before and during commissioning, check the pressing points or fittings for leaks.
- Please make sure that the threads are not over tighten when screwed on.
- Avoid any kinking of the hose!
- The inlet hose should not be permanently under pressure, especially in the case of prolonged absence, such as e.g. Holiday etc.
- We recommend an exchange after 5 years at the latest!

Since the inlet hose purchased by you is a product that is subject to natural aging, we ask you to regularly observe and check the above points.

Instructions for use see: www.haas.de
